RE: Disposal of Construction Debris at the Transfer Station

Yesterday when you came in to contact the Code Enforcement Officer you mentioned that you wanted to get hold of him immediately so that you could remove a deck while the Transfer Station was open.

Although I did not catch it at the time, I would assume that your intentions were to tear out the deck and take the debris to the Transfer Station. If this was the case, I need to advise you that we cannot accept construction debris resulting from the work of anyone hired by wage or contract by a property owner. Only a property owner doing a self-help project may dispose of building debris at the Transfer Station.

I recently had a contractor remove three outbuildings from my property, which created 3 tons of debris. Because of the Town's ordinance I had it disposed of at the Bath Landfill for \$75.00 per ton. This may be a viable alternative for any building debris that you create through your business.

I have attached the applicable sections of the Transfer Station ordinance for your review.

If you have any questions please contact me at 389-2653.

Sincerely,

Mike Young
Administrator
Town of Phippsburg
