

Developing a Values Statement for the Town of Phippsburg, Maine

STEP 1:

As a result of a preliminary target survey, four “BIG IDEAS”, surfaced as theme areas reflecting what was important to the future of the Town--and to be included in the Comprehensive Plan.

Big Idea #1

Rural Character

Preservation of the rural character, history, land, and scenic vistas

Big Idea #2

Caring for the Community:

Health and well-being of the community

Big Idea #3

Economic Balance:

Economic diversity with favor toward the middle class

Big Idea #4

Natural World:

health of our ecological systems and environment

STEP 2:

Keeping these four theme areas in mind, Mission, Vision, and Values Statements will be developed by the Phippsburg Comprehensive Plan Committee, with help from members of the larger community at gatherings in the spring of 2024.

VISION STATEMENT

Describes the state of the Town 10 years in the future.

MISSION STATEMENT

The Mission utilizes the vision statement to construct clear goals and actionable tasks.

VALUES STATEMENT

Reflects the core beliefs, priorities, and governing principals to guide the implementation of the Plan.

STEP 3:

The final Statements combined with the Big Ideas will be used by the Comprehensive Plan Committee to then frame the written Plan.
